

MILITARY AID TO ISRAEL COMES AT A PRICE.

During the Bush Administration, **Israel killed more than 3,000 innocent Palestinian civilians**, often with U.S. weapons provided at taxpayer expense. Israel also used these weapons to injure thousands more innocent Palestinians and destroy billions of dollars of Palestinian civilian infrastructure, such as homes, schools, factories, farms, and hospitals. **Israel continues to misuse U.S. weapons** to blockade the Palestinian Gaza Strip and build illegal Israeli-only colonies on Palestinian land in the West Bank and East Jerusalem.

Between 2009-2018, the United States is scheduled to give Israel an **additional \$30 billion in weapons** which will be misused by Israel to commit more human rights abuses against Palestinians and prevent the possibility of a just and lasting peace for Palestinians and Israelis.

Military aid to Israel comes at a price that we can't afford. Instead of giving Israel these weapons each year, the federal government could be providing affordable housing vouchers to more than 350,000 low-income households, or retraining nearly a half million workers for green jobs, or providing early reading programs to nearly 900,000 at-risk students, or supplying primary health care for more than 24 million uninsured Americans.
